Using Safer Community for Events

Step 1: Have the person open the Safer Community app and click this button.

Step 2: The status card screen will show 4 pieces of info that you must verify.

1) This color changes daily. Check the color in the app on your phone and make sure everyone has the same color.

2) The ring around the person’s picture spins. Verify that the ring is spinning so you know it’s not a screenshot.

3) Make sure the picture in the app matches the person’s face.

4) Make sure you see a green circle with a check mark and ‘Building Access GRANTED’.

Step 3: Once you have verified all 4 pieces of info, admit them to the event. If you cannot verify all 4 pieces of info, let them know you are unable to admit them.

Visitors: Only UNL students, faculty, staff, and designated affiliates can use the Safer Community app. Visitors can be admitted without use of the app.

Important: If you feel threatened, remove yourself from the situation.
